

SMART Inventory Manager For SAP® ERP

Syclo's SMART Inventory Manager is a complete wireless materials management solution for SAP ERP. It enables precise tracking and paperless management of inventory throughout the organization, helping you increase productivity, lower costs and optimize your supply chain.

SPEED UP CYCLE COUNTS

- Download a list of materials
- Enter physical counts and serial numbers
- Enter items not included on the download list
- Update/reconcile physical counts
- Add new bins or storerooms

RECEIVE GOODS FOR PURCHASE AND PRODUCTION ORDERS

- Download a list of purchase orders by date, vendor, plant, etc.
- Display line items for a selected purchase order
- Enter receiving and returns information for each line
- Accept all items on a single purchase order

ISSUE GOODS AND TRANSFER STOCK

- Issue goods to order, cost center, customer, etc.
- Return materials to the storeroom
- Transfer stock from one storage location to another

SYCLO: SAP'S MOBILE CO-INNOVATION PARTNER FOR ASSET MANAGEMENT AND FIELD SERVICE

BUSINESS BENEFITS

BOOST PRODUCTIVITY

Without relying on paper forms for cycle counts, stock transfers, receipts and issues, your staff can work more productively and with fewer errors. Your stockroom operations benefit from faster inventory processes, while your internal customers spend less time waiting and handling paperwork.

OPTIMIZE YOUR SUPPLY CHAIN

With accurate, up-to-date information on stock levels and usage trends in SAP ERP, you can implement and enforce just-in-time inventory processes that save you money and make your customers happy. SMART Inventory Manager eliminates stockout hassles, spoilage and overstock that plague many paper-based inventory operations.

REDUCE COSTS

SMART Inventory Manager gives you real-time visibility and tight inventory controls you need for an efficient inventory operation. By capturing all transactions in electronic format and uploading all data directly into SAP systems, the mobile application has helped many companies cut the costs of shrinkage, emergency shipments and carrying excess in-process stock.

IMPROVE REGULATORY COMPLIANCE

Reduce your costs of compliance by automatically generating electronic audit trails of all your inventory transactions, quantities and locations. This helps you avoid fines and simplify reporting for the SEC, FDA and other oversight groups.

SMART INVENTORY MANAGER ADVANTAGES

■ CODE-FREE CONFIGURATION

Every part of SMART Inventory Manager — from integration to application flow to add-on components — can be configured using Syclo's intuitive, graphical toolset. Code-free configuration means faster deployments, greater application reliability and lower TCO.

■ EXTREME EASE OF USE

As with all Syclo apps, user experience is priority #1. SMART Inventory Manager For SAP ERP offers an intuitive, action-driven interface that displays only information relevant to the user and validates all data and business rules right on the device.

■ TRUE CROSS-PLATFORM SUPPORT

SMART Inventory Manager is built using a model-driven development approach that lets you support multiple devices with the same set of business logic. With no separate sets of code necessary for different platforms, maintenance is affordable and changes are easy.

■ ENTERPRISE-GRADE RELIABILITY

With the best of SAP and Syclo technologies as its foundation, SMART Inventory Manager is extremely resilient, easy to manage and scalable to thousands of users. The solution offers 100% availability in the offline mode, swift performance, and reliability backed by a decade of mobile experience.

■ CO-INNOVATED WITH SAP

SMART Inventory Manager is brought to you through tight collaboration between Syclo and SAP. Our close co-innovation partnership lets the two companies work together on blueprinting, developing, testing and supporting the best mobile products on the market.

■ ROBUST, INTELLIGENT INTEGRATION WITH SAP AND OTHER SYSTEMS

Syclo's advanced SAP integration framework lets you extend the full breadth of SAP system functionality to your mobile users. SMART Inventory Manager acts as a direct extension of your SAP software, with seamless data flow, fast synchronization and error-free operation year after year. You can even integrate the application with several systems and databases at a time to achieve the best in functionality and user experience.

Syclo's SMART Mobile Suite is a family of mobile applications that gives companies a quick, low-risk way to mobilize work dispatch, approvals, inventory management, inspections, field service and other key processes. Tightly integrated with SAP ERP and SAP CRM, SMART Mobile Suite apps have helped many companies cut costs, boost employee productivity and capture more timely, accurate data for reporting and analysis.

ABOUT SYCLO

Since 1995, Syclo has helped more than 750 organizations across industries leverage mobile technology to streamline workflow and improve productivity. Syclo's solutions make data collection and decision making faster, easier and more reliable — reducing costs and driving more value from enterprise systems. Our SMART Mobile Suite products and custom-built mobile applications help companies gain a real-time, 360-degree view of operations to support ongoing growth and profitability.
