

SMART Rounds For SAP® ERP

Syclo's SMART Rounds For SAP ERP is a turnkey mobile solution that accelerates routine condition monitoring, meter readings and capture of measurements points in the field. The app gives workers full access to SAP rounds data, helps them paperlessly record observations and create notifications for out-of-spec conditions right from the mobile device.

ACCESS ROUNDS ON THE MOBILE DEVICE

- Build rounds and measurement points directly in SAP
- Download up to 50 rounds at a time
- Sort rounds by equipment, name, location or measurement point
- View upper-lower ranges, long descriptions and historical readings

TAKE AND RECORD READINGS

- Numeric readings
- Descriptions
- Code group readings
- Counters
- Reverse counters

CREATE NOTIFICATIONS FROM THE FIELD

- Automatic alerts for measurements outside the safe range
- Quickly create notifications based on current location & equipment
- Specify type, priority, comments and repair descriptions

SYCLO: SAP'S MOBILE CO-INNOVATION PARTNER FOR ASSET MANAGEMENT AND FIELD SERVICE

BUSINESS BENEFITS

BOOST PRODUCTIVITY

With SMART Rounds, your field staff finally has a systematic, efficient approach to capturing large volumes of data. The mobile application eliminates paperwork and offers users a simple, step-by-step interface for electronically capturing daily rounds and readings. The result is higher productivity, fewer errors and more time spent doing other work.

REDUCE COSTS

Cut your administrative costs by eliminating paperwork and unnecessary data entry staff from your operations. All data captured by your field personnel is instantly validated on their devices and uploaded directly to SAP ERP or your historian databases. With no paper logs, errors and rework, your processes are efficient and overhead stays low.

INCREASE ASSET RELIABILITY

SMART Rounds helps populate your SAP ERP with timely, consistent data you need to monitor your assets and continuously improve your maintenance programs. With complete historical records and easy access to trending information, you can detect problems early and keep your maintenance costs down. What's more, Syclo's mobile application lets your field staff diagnose problems on the spot and instantly create notifications in SAP ERP for fast resolution.

IMPROVE REGULATORY COMPLIANCE

Reduce your costs of compliance by automatically generating electronic audit trails of your daily maintenance work. By electronically recording your readings and taking immediate action on out-of-spec conditions, you can effectively enforce safety guidelines and simplify reporting to regulatory agencies.

SMART SERVICE MANAGER ADVANTAGES

■ CODE-FREE CONFIGURATION

Every part of SMART Rounds — from integration to application flow to add-on components — can be configured using Syclo's intuitive, graphical toolset. Code-free configuration means faster deployments, greater application reliability and lower TCO.

■ EXTREME EASE OF USE

As with all Syclo apps, user experience is priority #1. SMART Rounds For SAP ERP offers an intuitive, action-driven interface that displays only information relevant to the user and validates all data and business rules right on the device.

■ TRUE CROSS-PLATFORM SUPPORT

SMART Rounds is built using a model-driven development approach that lets you support multiple devices with the same set of business logic. With no separate sets of code necessary for different platforms, maintenance is affordable and changes are easy.

■ ENTERPRISE-GRADE RELIABILITY

With the best of SAP and Syclo technologies as its foundation, SMART Rounds is extremely resilient, easy to manage and scalable to thousands of users. The solution offers 100% availability in the offline mode, swift performance, and reliability backed by a decade of mobile experience.

■ CO-INNOVATED WITH SAP

SMART Rounds is brought to you through tight collaboration between Syclo and SAP. Our close co-innovation partnership lets the two companies work together on blueprinting, developing, testing and supporting the best mobile products on the market.

■ ROBUST, INTELLIGENT INTEGRATION WITH SAP AND OTHER SYSTEMS

Syclo's advanced SAP integration framework lets you extend the full breadth of SAP system functionality to your mobile users. SMART Rounds acts as a direct extension of your SAP software, with seamless data flow, fast synchronization and error-free operation year after year. You can even integrate the application with several systems and databases at a time to achieve the best in functionality and user experience.

Syclo's SMART Mobile Suite is a family of mobile applications that gives companies a quick, low-risk way to mobilize work dispatch, approvals, inventory management, inspections, field service and other key processes. Tightly integrated with SAP ERP and SAP CRM, SMART Mobile Suite apps have helped many companies cut costs, boost employee productivity and capture more timely, accurate data for reporting and analysis.

ABOUT SYCLO

Since 1995, Syclo has helped more than 750 organizations across industries leverage mobile technology to streamline workflow and improve productivity. Syclo's solutions make data collection and decision making faster, easier and more reliable — reducing costs and driving more value from enterprise systems. Our SMART Mobile Suite products and custom-built mobile applications help companies gain a real-time, 360-degree view of operations to support ongoing growth and profitability.
